Android Device Overview

About this course...

The goal of this course is to familiarize users with the new Android Hardware.

Basic Features and Important Things to Know

The Android User will need to utilize a variety of navigation tools to maneuver throughout Android PointCare Manager and document patient care.

No stylus needed

(however special one can be purchased)

Use of finger gestures

- Touch Screen Tips
 - Touch: Choose an icon
 - Touch & Hold: Show options
 - Drag: Scroll or move slowly
 - Flick: Scroll or move quickly
 - Zoom in/out: Pinch

Every Android has navigation tools found at the bottom of the device:

– Menu

- Home
- Back
- Search

Menu

Menu button may look somewhat different on each device, could be lines stacked on top of each other, or actually say menu

Home Button

- Takes the user to central home screen.
- Does not close any applications
- Great Navigation tool to "Minimize" PointCare

Back

- Takes the user to the previous screen
- Can also act as a "Save" in PointCare

Notifications

Icons at the top of the screen notify you about messages and phone status. To see your notifications touch the status bar and drag it down. Touch a notification to select it.

To dismiss notifications touch "Clear"

The Home Screen

 Applications can be accessed from the Home Screen.

Applications

Certain Applications are included on the Android Device:

- Email
- Calendar
- Contacts
- Maps

Applications

- Device is for Company use only, phone # shouldn't be given to personal contacts.
- Texting is not permitted
 Security & Cost
- Personal accounts should not be loaded, such as:
 - Facebook
 - Twitter
 - Personal E-mail
 - Etc.

Applications

- Voicemail should be set per SolAmor guidelines
- Use of application markets and downloads not authorized by SolAmor Hospice are prohibited
- Follow Safety First guidelines on the use of the device e.g. do not make/receive calls while driving; do not read/compose e-mails while driving.
- Read and sign the SolAmor Hospice Device use guidelines
